

***ACKNOWLEDGEMENT AND REFUSAL
SURGE / LIGHTNING PROTECTION***

This is to certify that on this day the ____ of _____, 20 ____, I was advised to include surge protection devices with my installation of selected electrical/electronic equipment. The protection that was proposed includes but may not be limited to the following:

- ____ Surge protection and/or battery backup for CCTV systems to include head end equipment, network and back plane infrastructure, video recorders, and fixed and/ or pan/tilt/zoom cameras.
- ____ Power, voice, signal and data line surge protection for fire alarm control main and sub Panels and for NAC, SLC, and IDC signal loops.
- ____ AC power surge protection for electrical main panels, distribution panels, sub panels, switchgear or electrical outlets.
- ____ Surge protection for power, data, or network connections for access control systems, control panels, intrusion alarms, or other computerized equipment.
- ____ Surge protection for residential applications to include electrical panels, modem/phone/fax equipment, computer system connections, DSS/Cable TV devices, and home theater systems.

Declination Statement:

I have declined the installation of surge protection devices as offered above. I understand that equipment damage resulting from a lightning strike or from transient surges due to inductive load switching, grid switching, capacitor bank discharges and other man-made causes may not be covered under Original Equipment Manufacturers' Product Warranties.

I accept and assume full and complete responsibility for any transient surge damage that may occur to my installed equipment. I also agree to hold the installation company harmless and free of obligation in accordance with my decision.
